

# Cookie Notice

SwordPay | swordpay.com | Effective: 28 May 2026

This notice explains what cookies are, which ones SwordPay uses, and how you can manage them. Any personal data linked to a cookie is handled under our Privacy Policy.

## What cookies are

Cookies are small pieces of data stored on your device that let us, or our service providers, remember information about your browser or device. Session cookies are removed when you close the browser. Persistent cookies stay on your device for a set period — typically between 30 days and 2 years.

## Essential cookies

You cannot disable these without breaking core SwordPay functionality.

| Cookie                        | Type                 | Purpose                                                                        |
|-------------------------------|----------------------|--------------------------------------------------------------------------------|
| sp_sess                       | Session              | Maintains your logged-in session                                               |
| sp_auth                       | Session              | Authenticates your user ID on each request                                     |
| sp_auth_2fa_{userid}          | Persistent (30 days) | Remembers a trusted device for two-factor authentication where you asked us to |
| sp_csrf                       | Session              | Establishes a secure connection and prevents cross-site request forgery        |
| sp_fp                         | Persistent (90 days) | Browser fingerprint for fraud-prevention and security                          |
| sp_lang                       | Persistent (1 year)  | Stores your language preference                                                |
| sp_cookie_choice              | Persistent (1 year)  | Records your cookie-banner choice                                              |
| cf_* (__cf_bm, _cfuvid)       | Session / 30 min     | Cloudflare bot-protection cookies                                              |
| cdn_policy, cdn_sig, cdn_kpid | Session              | CDN signed-URL access for rights management of paid Content                    |
| sp_stream                     | Session              | Enables livestream playback                                                    |
| sp_profile_promo              | Session              | Enables free-trial and discounted-subscription promotions                      |

## Analytics cookies

Set only after you choose “Accept all” on the banner. They tell us, in aggregate, which pages are visited and how visitors move through SwordPay. They do not identify you to us.

## Third-party cookies

Cookies set by our payment processor, identity-verification provider, and fraud-prevention provider. Each has its own notice.

## The cookie banner

On your first visit you will see a banner asking whether to accept all cookies or only essential ones. We record your choice in the `sp_cookie_choice` cookie, and you can change it any time from your account settings.

## Managing cookies in your browser

- Chrome: Settings → Privacy and security → Cookies and other site data
- Safari: Preferences → Privacy
- Firefox: Settings → Privacy & Security
- Edge: Settings → Cookies and site permissions

Blocking essential cookies will prevent SwordPay from working correctly.

## Do Not Track

We do not currently respond to “Do Not Track” browser signals. We do not use cross-site tracking technologies and we do not sell personal data for targeted advertising.
